FLORICULTURE RULES

STANDARDS FOR JUDGING

- 25 pts. Form – Perfection of form for type of flower
- 15 pts. Color – Clear, rich luminous color
- 20 pts. Substance – Firm, crisp petals
- 10 pts. Size of flower – Typical for variety
- 20 pts. Stem – Strong straight stem, length in proportion to size of bloom
- 10 pts. Grooming and disbudding

1. The exhibitor must grow all floriculture entries. Container grown exhibits must have been in exhibitor's possession at least three months.
2. An exhibitor may make more than one entry in each lot provided each entry is a different variety and labeled.
3. All foliage must be attached. It should be clean with no evidence of spray residue, mildew or insect damage. No foreign substance permitted on foliage.
4. All "one bloom" exhibits must be disbudded. (Disbudding is removing bud side shoots as the specimen develops).

5. **Stem length should be cut in proportion to the size of the bloom.** Wedges (i.e. Saran Wrap, Styrofoam, Wood) may be used to hold the exhibit at the correct pose. Fairboard provides vases or you may use clear glass bottles. **No colored bottles.** No pop bottles.
6. **Variety names must be listed on entry tags.** Only correctly labeled exhibits are eligible for "Best of Show" award.
7. Lots may be withdrawn, combined, or divided if the number of entries warrants. Exhibits not meeting the specifications of the schedule will be disqualified.

ARTISTIC DESIGN RULES

1. Exhibitors may enter as many classes as they desire but only one entry per lot.
2. All fresh plant material may be from any source and must be arranged by the exhibitor. Backgrounds and accessories permitted.
3. No artificial or silk plant material permitted, except Class 9 Silk Flowers. Painted or artificially colored fresh plant material is never permitted.
4. Class 9 lots 1-4 will be silk floral arrangements.
5. Bleached, treated (glycerin etc.) and dried material may be used unless otherwise stated.

7. List plant material, used in the design, on exhibitor tag or on a separate card placed by the design.
8. All "Choice" designs must be labeled with the floral design classification the exhibitor is using.

FLORAL DESIGN CLASSIFICATIONS

All floral designs can be classified as either TRADITIONAL (naturalistic, geometric, including Oriental, European and early 20th century designs) or CREATIVE designs (contemporary and abstract).

CREATIVE DESIGN incorporates space within and usually shows restraint in the amount of plant material and the number of components used.

TRADITIONAL DESIGNS may be classified as line, line mass, or mass. Line designs exhibit lines as the most important feature and plant material is sparse. Line-mass designs incorporate both line using branches, stems or a series of blooms or leaves in a skeletal pattern; massing is along the main line, heavier toward the center and tapering along the outside edges. Mass design emphasizes a large mass of flowers with fullness and a minimum of voids.

An INTERPRETIVE DESIGN is the designer's own feeling, idea, or translation of the class title to be depicted from the flower show schedule. The design could be traditional, creative or abstract. If not stated, it is the designer's choice.
